Armor Pattern Kit

Introduction

Hey guys! I'm **Sara McMunn** of **C'est La Sara**. I would like to thank you for purchasing my Li Ming Armor Pattern Kit, and I hope that you find this useful as you craft your own next masterpiece. I debuted this costume as part of Blizzcon 2016 and have documented every step of the way of this costume. You can watch my **Twitch Past Broadcasts (twitch.tv/CestLaSara)** on full real-time videos on how I constructed Li Ming.

This is the first of many armor PDF kits I plan on releasing once I have tested them to my standards. On the honor code, it would be greatly appreciated if you please do not openly distribute or publish this online for free use as I have dedicated a lot of my time and effort into producing these patterns. **Nevertheless, I enjoy helping the cosplay community no doubt ☺**

Please let me know if you have any questions or suggestions!

What's Included?

Disclaimer: The armor patterns in this kit are scaled to my body size. (I'm 5'1", or 155cm) You may need to use these as reference for tracing or scaling to a different size to fit your needs. I have put my whole entire cosplay set on a thin BMI mannequin 5'8" (or approx. 175cm) and it still looks ok for perspective.

- Crown (p. 8 – 10)
- Choker (p. 11)
- Shoulder armor (p. 12 – 15)
- Left forearm band armor (p. 16 – 18)
- Left hand armor (p. 19)
- Left hand claws (p. 20)

This armor pattern file does NOT include:

- Specific instructions on making this costume
